House of the Moment

IRRESISTIBLE DETAILS Montana's scenic Flathead Valley is home to dramatic mountains, pristine forests, glittering lakes—and a straight-out-of-a-storybook enclave called The Kootenai. A stone's throw from Swan Lake, Johnson Creek and Swan River, the residential development is known for its unique array of meticulously restored antique cabins, including the historic Lindbergh Cabin. Built in the 1880s, the original cabin is rumored to have housed the famous aviator when he visited the grounds in the 1920s. Now fully restored, expanded and modernized, the five-bedroom cabin features grand fireplace-warmed living spaces, a gourmet kitchen, guest bedrooms with ensuite baths, and a private master suite complete with its own flagstone patio. The luxurious residence also offers an inviting entry courtyard and fountain, outdoor dining deck, and a lakeside terrace positioned to take full advantage of the waterfront property's up-close views of Swan Lake and the Swan River. Offered fully furnished.
